Article 2 (Non-discrimination): All children have these rights, no matter who they are, where they live, what their parents do, what language they speak, what their religion is, whether they are a boy or girl, what their culture is, whether they have a disability, whether they are rich or poor. No child should be treated unfairly on any basis.

Article 3 (Best interests of the child): All adults should do what is best for the children. When adults make decisions, they should think about how their decisions will affect children.

Article 12 (Respect for the views of the child): Children have the right to give their opinion, and for adults to listen and take it seriously.

Article 29 (Goals of education): Children's education should help them use and develop their talents and abilities. It should also help them learn to live peacefully, protect the environment and respect other people.

1. Introduction

1.1 At St Bridget's CofE Primary School, we are committed to providing the best possible provision for pupils of all abilities. We plan our teaching and learning so that each child can aspire to the highest level of personal achievement. The purpose of this policy is to help ensure that we recognise and support the needs of those children in our school who have been identified as 'More able'.

1.2 In the national guidelines the terms are distinguished as follows: The DCSF (Department for Children, Schools and Families), the predecessor of the Department for Education (DFE) defines able learners as:

“Those children and young people with one or more abilities developed to a level significantly ahead of their year group (or with potential to develop those abilities).”

They can be identified in any year and amount to 7-10% of the school population, although we do not attempt to manipulate individual cohorts to ensure that this is so. Provision will be made for these children within the normal class teaching, but sometimes we will provide enrichment or extension activities to promote their skills and talents still further including invitations to workshops available through 'North West Gifted & Talented'.

More able learners are defined as those who have abilities in one or more subjects in the statutory school curriculum. They have the capacity for, or demonstrate, high levels of performance in a subject area. This also includes children who are leaders or role models and who display outstanding leadership and/or social skills.

2. Aims

2.1 Our aims are to:

- Provide a high quality curriculum and effective teaching.
- Identify pupils who have above average ability in one or more areas of the curriculum.
- Provide opportunities to extend and challenge pupils through mastery curriculum.
- Ensure that pupils achieve their full potential; meeting expected attainment and progress targets by developing children's confidence.
- Provide extra-curricular activities which provide enrichment in different areas of the curriculum.

3 Identification of more able children

We use a range of strategies to identify more able children. The identification process is ongoing, and begins when the child joins our school.

3.1 In the EYFS, each child's pre-school record gives details of achievements and interests in particular areas. Information from baseline assessments carried out by class teachers within the first half-term of the reception year gives information about their developing skills across several areas of learning. Therefore, we can identify children who are likely to be more able.

3.2 Across the school, discussions also take place with parents and carers to enable us to gain further information about a child's ability.

3.3 Throughout all key stages, class teachers use prior attainment and current performance to identify children that may be more able and use on-going tracking assessment to monitor progress and to ensure challenge is provided through high quality teaching in the classroom.

3.4 The children undertake national tests in Year 2 and Year 6. Y2 data provides teachers with a benchmark to identify those who are more able and are working at a greater depth within the curriculum. Teachers also make regular assessments of each child's progress in all subjects of the National Curriculum in accordance with the assessment without levels initiative. We compare the information from these assessments where possible with a range of national and Local Authority data, in order to ensure that each child is making appropriate progress in addition to their personal predicted targets.

4 Characteristics of an able child

More able pupils are a diverse group and their range of attainment will be varied. They are more likely than most pupils to:

- think quickly and accurately
- work systematically
- generate creative working solutions
- work flexibly, processing unfamiliar information and applying knowledge, experience and insight to unfamiliar situations
- communicate their thoughts and ideas well
- be determined, diligent and interested in uncovering patterns
- achieve, or show potential, in a wide range of contexts
- be particularly creative
- show great sensitivity or empathy
- demonstrate particular physical dexterity or skill
- make sound judgements
- be outstanding leaders or team members
- be fascinated by, or passionate about, a particular subject or aspect of the curriculum
- demonstrate high levels of attainment across a range of subjects or within a particular subject or aspect(s) of work
- are able to use a high level of mastery in order to work with the curriculum objectives taught.

It is important to recognise that not all more able pupils are obvious achievers. Many actually under achieve – their potential is masked by factors such as frustration, low self-esteem, Special Educational Needs, lack of challenge, and low teacher/parent expectations. At St Bridget's, we are committed to ensuring that the provision for more able children is a priority.

5 Disadvantaged more able pupils

As with all pupils, the school is committed to ensuring that more able children are fully challenged and achieve their potential through high quality teaching. Due to the allocation of additional funding and the accountability this brings, the school will ensure that disadvantaged more able pupils are provided with opportunities to not only access and embrace the curriculum but to experience learning and life skills that will develop their whole being as a child. Experiences can include additional sports, music, Arts or simply new experiences that may not be available to help them because of financial constraints or difficulty. Our aim is to help our children grow existing talents and help them identify new ones. These opportunities can be provided in and/or outside of school hours.

6 Provision

6.1 Our teachers plan carefully to meet the learning needs of all our children. We give all children the opportunity to show what they know, understand and can do, and we achieve this in a variety of ways when planning for children's learning. We use a mastery curriculum. Mastery is how a child can apply much of the curriculum as a whole in more in-depth and complex, cross-objective, multi-modal methods. Please see below for the system we use to track pupil's mastery within the curriculum for English and mathematics.

6.2 Children are familiarised with a variety of organisational strategies as they move through the school. These strategies can be used by all children, but give due scope to higher achievers including the setting across core subjects and small group interventions.

6.3 We offer a range of extra-curricular activities for our children. These activities offer higher achievers the opportunity to further extend their learning in a range of activities. Opportunities include a range of sporting and musical clubs.

6.4 Learning is also enriched through regular homework activities linked to the work being undertaken in classes. This offers teachers a further opportunity to set work at the level of individual children.

6.5 The children will also have the opportunity to experience a range of educational visits that further enrich and develop learning.

6.6 We promote celebration of achievements by asking parents to inform the school if their child has an out-of-school award etc.

6.7 We plan enrichment weeks when the normal timetable is suspended and cross-curricular projects, which offer pupils more challenge and responsibility.

Children can be assessed as to their ability to master the objectives using a scale from 1 – 4.

Rating	#1 [Low]	#2 [Expected]	#3 [Good]	#4 [Very Good]
Standards	This is below the expected standard depth of application and understanding. Does not apply their learning.	This is the expected standard depth of application and understanding. Average application of learning.	This is above the expected standard depth of application and understanding. Good application of learning.	This is well above the expected standard depth of application and understanding. Very good application of learning.
Examples	Recalls facts, remembers learnt information. Constructs simple responses.	Applies understanding. Uses facts, information or procedures to respond to, solve and answer problems. Applies own knowledge in a different context.	Applies understanding in more complex situations. Uses facts, information or procedures to respond to, solve and answer complex problems. Applies own knowledge in an alternative and unusual context.	Applies understanding creatively in more intricate situations. Uses facts, information or procedures to respond to, solve and answer complex and unfamiliar problems. Applies own knowledge into alternative and unique contexts.

7 Monitoring and review

Class teachers

7.1 Class teachers keep regular records of the attainment and progress for all pupils in their classes in Reading, Writing and Maths, and report each term on the progress and attainment of these pupils. Teachers discuss the children's progress with parents at the termly consultation evenings and report annually on each child's progress in July. All co-ordinators use their subject data analysis to form action points for the next academic year.

7.2 Class teachers review progress and set targets with pupils each term, or more often if required.

More able Lead

7.3 There is a nominated teacher who coordinates the provision and practice within the school for more able children and keeps an up to date register of able, gifted and talented pupils.

7.4 The More able Lead tracks progress of more able pupils.

7.5 The lead regularly monitors the provision for these pupils by reviewing the teaching arrangements in place and lesson planning. Work samples from the higher achievers will also be monitored and lesson observations across the curriculum will ensure the correct provision for the more able pupils in our school.

7.6 The lead supports staff in the identification process as well as provides advice and support on teaching and learning strategies.

7.7 The lead provides feedback to the governing body on an annual basis.

Governors

7.8 The governor with responsibility for SEND monitors the school provision for more able pupils. The governor will work with the school's more able Lead in support of the school's efforts to help these pupils to reach their full potential.

7.9 This policy and information report will be reviewed by the Senior Leadership Team **every three years**. It will also be updated if any changes to the information are made during the year.

It will be approved by the governing board.
